EDUCATION

Cavite State University Cavite City

Campus

- Bachelor of Science in
Computer Science
- SEPT 2018 - 2026

Uplift Code Camp

- FullStack Web Developement
- JULY 2024 - DEC 2024

SKILLS

Programming Language:

- Javascript
- TypeScript

Front-end :

- React.js
- Next.js
- Tailwind CSS

Back-end :

- Node.js
- Express.js

Database :

- PostgreSQL
- MySQL
- MongoDB

API Developement :

- RESTful API

Development Tools :

- Git
- VS Code

ABOUT

Aspiring Full-Stack Web Developer and Computer Science student with hands-on experience building responsive, scalable, and user-focused web applications using the MERN and PERN stacks. Proficient in JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, and API integration. Skilled in developing intuitive user interfaces, designing RESTful APIs, and building efficient backend systems that enhance application performance and user experience. Committed to delivering high-quality, maintainable solutions, solving real-world problems, and continuously expanding expertise in modern web development and software engineering.

WORK EXPERIENCE

Melham Construction Corporation

JULY 2022 - AUG 2022

Co-Leader | Internship

- Created and maintained progress reports for project monitoring
- Assisted in debugging and resolving technical issues
- Collaborated with the team during daily stand-up meetings
- Supported team tasks and project coordination activities

PROJECTS

Careerly Application

NOV 2024 - DEC 2024

Front-end Developer

- Developed the Resume Builder feature, enabling users to create professional resumes through an intuitive and user-friendly interface.
- Designed and implemented a responsive Resume Builder UI, ensuring a seamless experience across desktop, tablet, and mobile devices.
- Built a real-time resume preview functionality that instantly reflects user input and resume updates.
- Integrated PDF generation and download capabilities, allowing users to export professional resumes in PDF format.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

File Tracker Application

SEPT 2025 - JAN 2026

Full-Stack Developer

- Developed a centralized academic file management system for the IT Department of Cavite State University – Cavite City Campus to streamline submission and monitoring of academic requirements.
- Built the Faculty Module, enabling faculty members to manage subject loads, submit required documents, track submission statuses through Task Deliverables, and receive notifications for requirement deadlines.
- Developed the Admin Module, including user management functionalities for creating and verifying faculty accounts, monitoring file submissions, and managing academic records.
- Implemented file management features with document tracking, history of records, and administrative controls for managing requirement due dates and subject availability.
- Created an analytics dashboard that provides administrators with an overview of submission activities and system usage for improved monitoring and decision-making.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Chart.js
